Mohamed Haroon
Partner & Director

" As the world becomes increasingly digital, the importance of cybersecurity cannot be overstated.

Cyber threats are evolving rapidly, and we are responsible for staying ahead of the curve and providing our clients with the best possible protection.

ABOUT US

A certified cybersecurity specialized consulting company and a value-added supplier of cybersecurity solutions with more than

50 Years

of accumulated experience in helping businesses and organizations stay ahead of cyber attacks.

ABOUT US

In a dynamic world where cyber threats constantly evolve, businesses need a trustworthy partner to be their data and systems guardian angel.

That's where Gatelock comes in.

We help medium to large enterprises embrace the cloud revolution through unique SOC as a service solution, with extensive services across sales, marketing, technical, and finance, and through leading solutions designed to prevent and respond to sophisticated cyber incidents and promote growth.

Government

Oil & Gas

Education

We serve many sectors including but not limited to

Banking

Retail

Telecom

Private sectors

ABOUT US

Our Team of innovative cybersecurity experts work around the clock and adapt to the latest technological developments to bring cutting-edge cybersecurity solutions to regional businesses. Hence, several worldwide technology vendors recognize us as the ideal value-added distributor candidate in the region to gain access to local markets and increase their market share.

We stay ahead of the curve, providing personalized solutions that meet each client's needs. A one-of-a-kind long-term partnership of secured growing business and exceptional after-sales dedicated service is guaranteed to our clients all across different segments.

OUR VISION

To stay ahead of the curve by being dynamic and innovative and putting customer care at the heart of everything. Becoming the absolute go-to cybersecurity provider in the region is our primary objective as a part of our greater vision for a secure future.
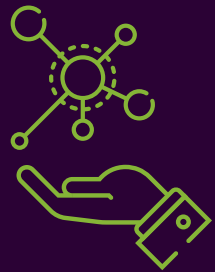

OUR MISSION

We aim to empower organizations and
businesses to operate confidently in a digital
world, free from the threat of cyber attacks,
in a sustainable way, and with a
people-centric approach.

WatchGuard®

OneSpan

ABOUT WATCHGUARD

WatchGuard is an award-winning global leader in network security, endpoint security, secure Wi-Fi, multi-factor authentication, and network intelligence.

For 25 years, WatchGuard has pioneered cutting-edge cybersecurity technology and delivered it as easy-to-deploy and easy-to-manage solutions. WatchGuard is headquartered in Seattle, Washington, with offices throughout North America, Europe, Asia Pacific, and Latin America.

WATCHGUARD & GATELOCK

The strong and long-standing partnership between Gatelock and WatchGuard has been instrumental in providing GateLock with one of its most robust and successful security solutions, "Panda."

The specialization provided by WatchGuard throughout the partnership has been critical in enabling GateLock to deliver superior security solutions to its customers.

WATCHGUARD **PROCESS & SOLUTIONS:**

- **1**: Network Security

WatchGuard Firebox is a comprehensive, advanced network security appliance that puts IT security professionals back in charge of their networks with widely deployable, enterprise-grade security and threat visibility tools suitable for any organization, regardless of budget, size, or complexity.

- **2**: Multi-factor authentication

AuthPoint multi-factor authentication (MFA) provides the security you need to protect identities, assets, accounts, and information. Let your company work confidently and worry-free with easy-to-use, cost-effective and complete multi-factor authentication.

- **3**: Secure Cloud Wifi

WatchGuard elevates your wireless experience through Wi-Fi 6 access points, centralized management, and intelligent reporting.

- **4**: Endpoint Security

Today's threat landscape is highly sophisticated and the volume of new viruses is unprecedented. Combat this new reality by deploying WatchGuard Endpoint Security. It gives you the ability to easily manage the technologies – including next-gen antivirus, EDR, and DNS filtering solutions – required to stop advanced cyberattacks, along with a full stack of integrated modules for additional layers of protection for patching, extended visibility, and data control.

ABOUT POOFPOINT

Proofpoint is a cybersecurity company that provides a range of security and compliance solutions for businesses and organizations. The company was founded in 2002 and is headquartered in Sunnyvale, California.

Proofpoint's solutions cover a range of cybersecurity areas, including email security, advanced threat protection, data loss prevention (DLP), cloud security, and compliance.

In addition to its cybersecurity solutions, Proofpoint also offers compliance solutions to help businesses and organizations meet regulatory requirements, such as GDPR and HIPAA.

PROOFPOINT & GATELOCK

Gatelock and Proofpoint have a solid and trusted partnership in cybersecurity.
Proofpoint's expertise has helped Gatelock deliver superior security solutions and provide together a reliable and cutting-edge technology that helps protect organizations from cyber threats.

PROOFPOINT'S **PROCESS & SOLUTIONS:**

| Recon | Initial Compromise | Persistence | Info Gathering | Priv ESC | Lateral Movement | Staging | Impact |

- **1**: Comprehensive visibility
  Know who is being attacked and how. Identify your Very Attacked People™ (VAPs).

- **2**: Unparalleled efficacy
  Detect more threats accurately with ML and behavioral analytics.

- **3**: Operational efficiency
  Reduce your team's workload.

- **4**: Continuous discovery
  Discover and prioritize identity vulnerabilities.

- **5**: Automated remediation
  Automatically purge risks from endpoints and servers.

- **6**: Runtime detection
  Deploy deception for failsafe intruder detection.

- **7**: Powerful context
  Leverage the power of context between data, behavior and threats.

- **8**: Unified visibility
  Get visibility into and prevent data loss and insider risk across channels.

- **9**: Insider investigation
  Investigate insiders while protecting their privacy.

- **10**: Accelerate time to value
  Implement a streamlined and highly scalable cloud-native deployment.
